Dear Dick:

I have received a petition from the Idaho Section of the Utah Chapter, ASSE, to form a chapter. Copy of letter attached with the proposed chapter boundaries. Will you please let me know if there are any boundary conflicts with chapters in your Region: Portland, Inland Empire, etc.

As marked, I do not visualize any conflicts at this point, but please let me know. If possible I would like to have this petition approved by my Regional Operating Committee prior to the February Board of Directors Meeting in New Orleans.

Will look forward to seeing you there, and I send you early holiday greetings. I hope you and yours have a Merry Christmas and Happy New Year.

With kindest personal regards,

Sam.

P.O. Box 81608
San Diego, CA 92138

Dear Mr. Rowland:

After talking to you and Dick Tuttle regarding the proposed northern boundary of the Snake River Chapter, we have decided to extend our boundary north to the Salmon River, which is currently the southern boundary of the Inland Empire Chapter. This would preclude having a gap in Idaho without the services of an ASSE Chapter.

I have enclosed a revised Exhibit A of the proposed By-Laws of the Snake River Chapter incorporating this change. PLease remove the previous Exhibit A and substitute the enclosed.

Thank you for pointing this discrepancy out to us.

Very truly yours,

Richard L. Daley
Chairman

Question has been resolved satisfactorily

Dear Sam:

We have reviewed the petition for Chapter status filed by the Idaho Section of the UTAH Chapter, American Society of Safety Engineers and would recommend approval of Chapter status.

Concerning their request (Exhibit A) which would change the geographical area to include Elmore Valley, Idaho and Franklin, Washington, we do not feel it would be our prerogative to make this recommendation as it should be approved by the Chapter now encompassing this area.

We would appreciate your prompt attention to this request. Also we feel sufficient time has been allowed regarding the request for a Wyoming Section and urge your prompt action on that petition.

Sincerely,

LeGrand O. Jones
President - Utah Chapter

Dear Mr. Rowland:

In reference to LeGrand Jones' letter dated November 29, 1977, I would like to clarify a couple of points relating to the geographical area indicated in our petition for chapter status.

According to the Utah Chapter by-laws, Elmore and Franklin counties in Idaho are currently part of the Utah Chapter. Valley and Washington counties are located in south central Idaho and to our knowledge, they are not included in any other chapter. We believe that Valley and Washington counties were inadvertedly left out of the Utah Chapter by-laws when the chapter was formed. Finally, our petition does not include Idaho county as this county is in the Inland Empire Chapter.

I hope this will clarify our position in this matter. If we are in error or need to take further action, please contact me.

Very truly yours,

Richard L. Daley,
Chairman

RE: PETITION TO FORM "SNAKE RIVER CHAPTER"

Dear Sam:

There is some difficulty with the Snake River Chapter's proposed Northern border and the Inland Empire Chapter's Southern border.

The Inland Empire's Chapter by-laws, Article IV, Section 4, defines the Chapter geographical boundaries as "All of Eastern Washington lying east of the Cascade Mountains except Klickitat County. All of Idaho lying north of the Salmon River. The entire state of Montana."

As I interpret the Snake River proposal, their northern border encroaches into the Inland Empire area at one point (area on Highway 93 from Salmon to state line) and leaves a large area unaccounted for between the Salmon River and their proposed northern boundary west to the Oregon border.

The simplest way to resolve this difficulty is for Snake River to change their proposed northern boundary to be the Salmon River.

The other option would be to petition the Inland Empire Chapter to change their southern boundary in Idaho. This of course would necessitate Region I Operating Committee sanction if Inland Empire agreed.

Let me know which direction you decide to go. We'll work with you and help as needed.

Have a happy holiday season and I'll see you in February.

Sincerely,

R. G. Tuttle

LeGrand Jones - Utah

I have received a petition from the Idaho Section of the Utah Chapter to form the Snake River Chapter of the American Society of Safety Engineers. I have reviewed the petition and pertinent documents and have found them in order except for clarifying a northern boundary line along the Salmon River. Action is now being taken through the Region I Vice President, R. G. Tuttle, to resolve this matter so I can present the petition request to the Board of Directors at its meeting February 2-3, 1978. Attached to this memorandum is a ballot to approve the petition. I am requesting your approval to form this new Chapter so I may request the Board of Directors approval in the New Orleans meeting. I will proceed in this matter only if the boundary question is resolved, which I expect will be the case.

The tight schedule to which we are working requires that this ballot be returned to me immediately. Please send now.

I will be sending you information relating to our Regional Operating Committee meeting in Phoenix on February 24, 1978.

With kind personal regards,

Sam

S. W. Rowland, Jr.

Dear Mr. Rowland:

Attached is a petition to form the Snake River Chapter in Idaho. A copy has also been submitted to LeGrand Jones, President of the Utah Chapter for their review and recommendations.

As you are no doubt aware, we have been holding monthly meetings since October 1976 and our membership as of July 29, 1977, has grown to 64 members.

A Chapter Task Force Committee was formed in November 1976 to formulate By-Laws and to make the necessary preparations to organize an ASSE Chapter. During the March and April 1977 meetings the proposed By-Laws were developed and a draft was approved. On May 18, 1977, a copy of the proposed By-Laws of the Snake River Chapter was mailed to all members.

At the monthly meeting on October 24, 1977, the By-Laws were adopted and an election of Chapter Officers was held. These officers will take office upon approval of the Chapter by the Region II Operating Committee. All members were notified of the time, purpose and location of this meeting.

We hope the enclosed materials satisfy the requirements of ASSE for petitioning for chapter status. If more information is needed, please feel free to contact us.

Thank you for all your assistance. We sincerely appreciate your support in our efforts to form a viable ASSE Chapter in Idaho.

Very truly yours,

Richard L. Daley
Co-Chairman
Idaho Section

Proposed

SNAKE RIVER CHAPTER

IDAHO

Leadership

An election of officers was held on October 24, 1977, for the proposed Snake River Chapter. These officers will take office upon approval of the Chapter.

A summary of current Idaho Section officers and elected Chapter officers follows:

IDAHO SECTION - Current

Co-Chairmen: R. L. Daley, Professional Member, PE, CSP
Herman Teich, Professional Member, PE

Secretary/Treasurer: R. Ben Rietze, Member

Committee Chairmen:

Chapter Task Force . . .	Ron Bingham
Membership	Fred Uranga
Professional Development .	R. L. Daley
Newsletter	Adrian Fannin
Program	Glen Bean

SNAKE RIVER CHAPTER - 1977-78

President: R. L. Daley, Professional Member, PE, CSP

President Elect: Herman Teich, Professional Member, PE

Secretary: R. Ben Rietze, Member

Treasurer: Jim Nordin, Member

Delegate: Ron Bingham, Professional Member, President Idaho Safety Council

Committee Chairmen:

Programming/Professional Development .	Glen Bean
Socials	Sandy Sanborne, Frank Florian
Membership	Fred Uranga
Publicity/Newsletter	Adrian Fannin

In accordance with our proposed By-Laws, the President Elect will serve the next term as President. The current membership roster indicates a total of 64 members with 22 Professional Members and 38 Members which further indicates a good reserve for future officer potential.

SNAKE RIVER CHAPTER

IDAHO

Programming/Professional Development

The Programming and Professional Development area is currently being chaired by Glen Bean, Member of ASSE and Safety Engineer for Idaho Power Company. Each month a program designed to educate and promote the professional development of members is presented at a dinner meeting. A list of past and planned programs follows:

December 13, 1976 - Cardio Pulmonary Resuscitation Training
Film and Demonstration presented by Ben Rietze and Steve Logan, CPR Instructors

January 17, 1977 - OSHA - Recent Developments
Presented by Richard Jackson, OSHA Area Director, U. S. Department of Labor

February 14, 1977 - Accumulative Trauma
Presented by Al Counter, CSP, Professional Member, Manager, Safety Services, Industrial Indemnity Co.

March 21, 1977 - Pipeline Construction
Presented by R. L. Daley, PE, CSP, Professional Member

April 18, 1977 - Medical Aspects of Hearing
Presented by Dr. Dick Areitio, Clinical Audiologist

May 16, 1977 - Designing Safety into Material Handling Equipment
Presented by Claude Swarthout, Vice President, Conveyor Engineering, Inc.

June 20, 1977 - The Safe World of Cryogenics
Presented by Larry Kissler, President of NORCO Welding and Supply

July 25, 1977 - The Rules of the Road
Presented by Pat Ehrlich, Chief of Bureau, Highway Safety, State of Idaho

August 18-19, 1977 - Joint meeting with Idaho Safety Council.
Forums on Traffic Safety in Idaho, Recreational Safety and How to Avoid Poisoning in the Home.

September 26, 1977 - Emergency Medical Services in Idaho
Presented by Betty Steele, Program Manager, Advanced Life Support, Idaho Department of Health and Welfare

October 24, 1977 - Chain Saw Safety
Film and Discussion presented by Glen Bean, Idaho Power Company

Programming/Professional Development

November 28, 1977 - Unusual Claims and Remedies
Presented by Al Counter, CSP, Professional Member, Industrial Indemnity Company

December 10, 1977 - Christmas Social with the Wives

January 23, 1977 - Industrial Hygiene

February 27, 1977 - Fire Protection

In addition to the monthly meeting programming, we planned and conducted a CSP study group for the October 1977 CSP exam. Approximately 15 members were involved in this study course and 3 traveled to Salt Lake City in October to take the exam. Another study group is currently being organized for the May 1978 exam.

Re: Annual Chapter Summary Report

Dear Mr. Marino:

From July 1, 1978 to June 30, 1979, the Snake River Chapter has gone through a development and learning phase.

Membership increased approximately 10 percent from 60 to the current level of 67.

Major activities and accomplishments are outlined below:

1. A program committee consisting of 8 members was formed in September, 1978. Each committee member was assigned the responsibility of 1 to 2 meeting dates and would have several months to plan and arrange the program for the meeting.

   This procedure worked out very efficiently with a minimum of burden being placed on any one person. The quality of programs was excellent and provided well in excess of the required 4 technical programs annually. A brief summary of these programs follows:

July - August 1978	No meetings held during summer recess
September 1978	"Industrial Security" by Dick Kersting, Crime Prevention Officer, Ada County Sheriff's Department
October 1978	"Boiler and Pressure Vessel Safety"
November 1978	"Instructional Techniques for Safety Training", ASSE Training Course
December 1978	Christmas Social, Safety Films
January 1979	"Arson and Fire Investigation", by John Boros, Fire Marshall, Boise City Fire Department

February 1979	"Interior Air Pollution", by Mine Safety Appliances Representative
March 1979	"Blasting and Explosives", by Jim McDonald, Technical Representative for Atlas Powder Company
April 1979	Elections
May 1979	"Tools of Our Trade to Sell Safety Successfully", by Sandy Sanborne, Safety Director, H-K Contractors
June 1979	"Air Traffic Control and Safety", by FAA Representative

2. In May 1979, a special meeting was held in eastern Idaho to promote the development of a section in that part of the State. The meeting was well attended with over 30 members and wives in attendance. A committee has been formed to evaluate the feasibility and interest for having an ASSE section in eastern Idaho.

3. Active committees this past year included membership, public relations, program, social, newsletter and training. The public relations and training committees are still in the planning phases. A number of good ideas have been developed to improve and expand our public relations effort and to increase our influence in the State. Training seminars are being actively discussed as a way to provide knowledge to members and the public and as a fund raising project.

4. Financially, the Chapter is solvent with over $800.00 in the bank. However, ways are being sought to increase our income in order to expand the professional development and programming activities.

5. Recent developments include an investigation into the feasibility for changing from Region II to Region I. A petition has been submitted to accomplish this goal.

6. Efforts have been made to contact the Idaho Society of Professional Engineers in order to promote a P.E. for safety engineers in this State. So far, efforts have only been for the purpose of gathering information.

7. The Chapter is going to provide name tags for members in order to encourage closer working relationship among the members. Also a summer social is being planned to involve the families in the Chapter's activities.

In summary, I believe the Chapter is very healthy and that we have had a successful year. There are several membership applications in the process and we are looking forward to continued growth and affiliation with the American Society of Safety Engineers.

The Chapter's annual financial statement is being prepared and will be submitted around the 1st of July. If you need any further information, feel free to contact me.

Very truly yours,

Richard L. Daley, P.E., C.S.P.
President
